I'm a full-stack developer passionate about building dynamic, user-focused applications. My experience spans Vue.js, ASP.NET Core, and MongoDB, with a growing interest in backend efficiency and admin interfaces. Excited to keep learning and bring fresh ideas to every project.

SKILLS

- **Programming Languages**: Java, Python, JavaScript, HTML/CSS, SQL, Node.js, React.js, Express.js, Vue.js, C#
-
- **Frameworks & Libraries**: MERN Stack (MongoDB, Express.js, React.js, Node.js), Angular, ASP.NET Core, Tailwind CSS, Ionic, WordPress (Elementor), Bootstrap
- **Databases**: PostgreSQL, MongoDB
- **Tools & IDEs**: Visual Studio Code, Visual Studio, WebStorm, Rider, DataGrip, Postman, GitLab, GitHub, Vercel, Atlassian tools, Cursor, Eclipse
- **Cloud & Deployment**: Vercel, AWS
- Version Control & CI/CD: Git, GitLab, GitHub
- **Full-Stack Development**: MERN Stack, ASP.NET Core, Angular, Node.js, PostgreSQL
- **Development Practices**: Agile methodologies, API integration, CRUD operations, RESTful API development

EXPERIENCE

Gauss School - Tetovo, North Macedonia
Software Development Intern
August 2019 – September 2021
Built interactive websites and games using HTML, CSS, and JavaScript, and developed e-commerce sites with WordPress and Elementor. Gained basic PHP skills to enhance site functionality.

Hexbold - Tetovo, North Macedonia
Full Stack Developer
January 2022 – October 2022
Worked on dynamic web applications using Angular for frontend API integration and ASP.NET Core for backend. Managed version control in GitLab,

tested APIs with Postman, and styled interfaces with Tailwind CSS. Improved application performance through algorithms and data structures.

Flazzy Clo - Tetovo, North Macedonia
Sole Developer
September 2024 – Present
Developed a full-stack MERN web application for a streetwear store, implementing features like dynamic product creation, payment processing, and admin controls. Ensured responsive UI/UX with Tailwind CSS.

Junior Web Developer
InnoBee: Innovation Management Platform | Remote
November 2024 – Present (3 months)

- Developed backend APIs using Flask and MongoDB, enhancing system performance.
- Refactored legacy code to improve maintainability and efficiency.
- Built UI/UX components for a web application using React.js.
- Developed features for a corporate website using React TypeScript.
- Conducted thorough testing and debugging to ensure reliability.

Activities and Skills

- Solved coding challenges on HackerRank, building strong problem-solving abilities.
- Proficient in Vue.js, React.js, Express.js, and ASP.NET Core, with extensive experience in CRUD operations and REST APIs.
- Skilled in Python, Java, Git, GitHub, GitLab, and Ionic for hybrid app development.

EDUCATION

High School Gymnasium *Computer Science*
Sep 2021 - May 2025
